

**PHASE**  
**FINAL Meeting**  
**5-6<sup>th</sup> June 2014**

**Thursday, 5<sup>th</sup> June 2014 - Kolbe Hotel Rome, Via di San Teodoro 48**

**09:30 – 9:50** Welcome  
Marina Davoli – Director DEP Lazio, Italy  
Paola Michelozzi – PHASE project coordinator DEP Lazio, Italy  
Bettina Menne – WHO European Centre for Environment and Health

**9:50– 10:10** Overview of the PHASE project  
*Paola Michelozzi DEP Lazio, Italy*

**Results of PHASE project: Heat and cold**

**10:10 – 10:30** Temporal variation in the effect of heat on mortality in 9 EU countries.  
*Michela Leone, DEP Lazio, Italy*

**10:30 – 10:50** A yearly comparison of the effects of summer temperatures on mortality for 9 European cities from 1990 to 2010.  
*Matteo Scortichini, DEP Lazio, Italy*

**10:50 – 11:10** The effect of cold on mortality and hospital admissions, by age group and cause of death in 9 European cities.  
*Francesca de' Donato DEP Lazio, Italy*

**Coffee break and Poster Viewing**

**11:40-12:00** Effects of heatwaves on Cohorts of Susceptibles  
Daniel Oudin Åström – Umeå University, Sweden

**12:00-12:20** Effects of heat on children  
Carmen Iñiguez–FISABIO, Valencia, Spain

**12:20-12:50** Effects of temperature and air pollutants on preterm births: results for Italian cities, Valencia and Stockholm  
Patrizia Schifano; DEP Lazio, Ana Vicedo; FISABIO, Valencia and Umeå University, Sweden

**12:50- 13:10** Web questionnaire on heat and cold prevention measures  
Christofer Astrom, Kris Ebi, Bertil Forsberg - *Umeå, Sweden*

***Lunch 13:10-14:00***

**14:00– 14:15** Evaluation of the GP surveillance program for the prevention of heat effects in the Lazio Region.  
*Manuela De Sario DEP Lazio, Italy*

**14:15– 14:30** Hungarian Heat Plan  
*Anna Paldy – National Institute of Environmental Health, Hungary (TBC)*

**14:30 - 14:45** The Cold Weather Plan for England  
*Dr Angie Bone - Public Health England, UK (TBC)*

**14:45 - 15:00** Heat waves prevention plan in France.  
*K. Laaidi, A. Ung, M. Pascal and P. Beaudeau (InVS),  
Laurine Tollec and Catherine Guichard (DGS)*

**15:00 – 15:20** WP8 Susceptible subgroups: an overview of PHASE results, key messages for public health and future research needs.  
*Bertil Forsberg- UMU, Sweden*

**15:20 – 16:15** *Round table panel discussion of National Experts from health and Environmental departments*

Introduction: Heat and cold prevention strategies: Key messages for Public Health.  
*Paola Michelozzi - DEP Lazio, Italy*

**Results of PHASE project: Synergistic impact of air pollution, extreme weather events and wild fires on health**

**16:15– 16:45** WP7 - Synergies between air pollution and EWEs  
*Klea Katsouyanni - Department of Hygiene, Epidemiology and Medical Statistics, University of Athens Medical School - Greece*

**16:45- 17:10** WP7 - Synergies between EWEs and wild fires  
*Antonis Analitis - Department of Hygiene, Epidemiology and Medical Statistics, University of Athens Medical School - Greece*

**17:10 – 17.40** PHASE Steering Committee meeting (PHASE partners only)  
Discussion on final reporting, financial aspects, future perspectives

***Social Dinner***

**Results of PHASE project: Prevention of health effects of wild fires**

- 09:30 – 9:50** Fire inventory and definition of forest fire emissions: results from Phase project  
Cathy Lioussé, *CNRS Toulouse*
- 9:50 – 10:10** Forest Fires and health effects  
Isabella Annesi – Maesano, *Université Pierre et Marie Curie – Paris 6*
- 10:10 – 10:25** Situational awareness and abatement of exposure during transnational wildfire smoke episode in Finland  
Raimo O. Salonen, *National Institute for Health and Welfare, Finland*
- 10:25 – 10:40** *Forest fires case study Marseilles public health strategies*  
Youssef Hassani, *Université Pierre et Marie Curie – Paris 6, France*
- 10:40 – 11:10** *Round table discussion panel of National Experts from Health and Environmental departments*
- Introduction: Synergies between Heat waves and air pollution and wild fires:  
Future research needs and Key messages for Public Health  
Klea Katsouyani and Isabella Annesi Maesano – *NKUA and UPMC*

***Coffee break and Poster Viewing***

**Results of PHASE project: Adaptation tools to prevent the health effects of flooding**

- 11:30 – 12:00** WP5 – Adaptation tools to prevent the health effects of flooding  
Angie Bone and Owen Landeg – *PHE, UK*
- 12:00– 12:20** Factors increasing susceptibility to Health effects before, during after Floods  
Diane Lowe – *Umeå University, Sweden*
- 12:20- 12:40** Summary of the WP5 European Flood workshop  
Angie Bone and Owen Landeg – *PHE, UK (TBC)*
- 12:40 – 12:55** Evaluation of the PHASE Health-Related Flooding advice leaflets during 2013 flooding in the UK  
Angie Bone and Owen Landeg - *PHE, UK*
- 12:55– 13:10** Effective flood resilience in health providers: flooding at a major NHS Blood and Transplant facility, UK  
Angie Bone and Owen Landeg – *PHE, UK*

***Lunch 13:10-14:10***

**14:10 – 14:40**      *Round table discussion panel of National Experts from health and Environmental departments*

Introduction: Floods prevention strategies: Key messages for Public Health  
*Angie Bone and Owen Landeg- PHE, UK*

**14:40- 15:10**      Public health management of extreme weather events: The WHO perspective  
*Bettina Menne - WHO European Centre for Environment and Health*

**15:10- 15:30**      Conclusion and Future perspectives  
*Paola Michelozzi - DEP Lazio, Italy*
